*"A wits a feather, and a chief a rod;
An honest man's the noblest work of God."*

Alexander Pope

In September of 1958, a quiet, gray-haired gentleman walked through the halls of Bradford Durfee College. This man, known to few, would, in future years, guide the college into the ranks of accreditation. During these trying years, little is known of the long and tedious hours that were spent by this man—advising, changing, and improving the college. To our aid, from retirement, came this man who was prepared through undergraduate studies at the University of Maine, continuing graduate studies at Harvard and New York Universities, and culminating as President of Farmington State Teachers College, Maine.

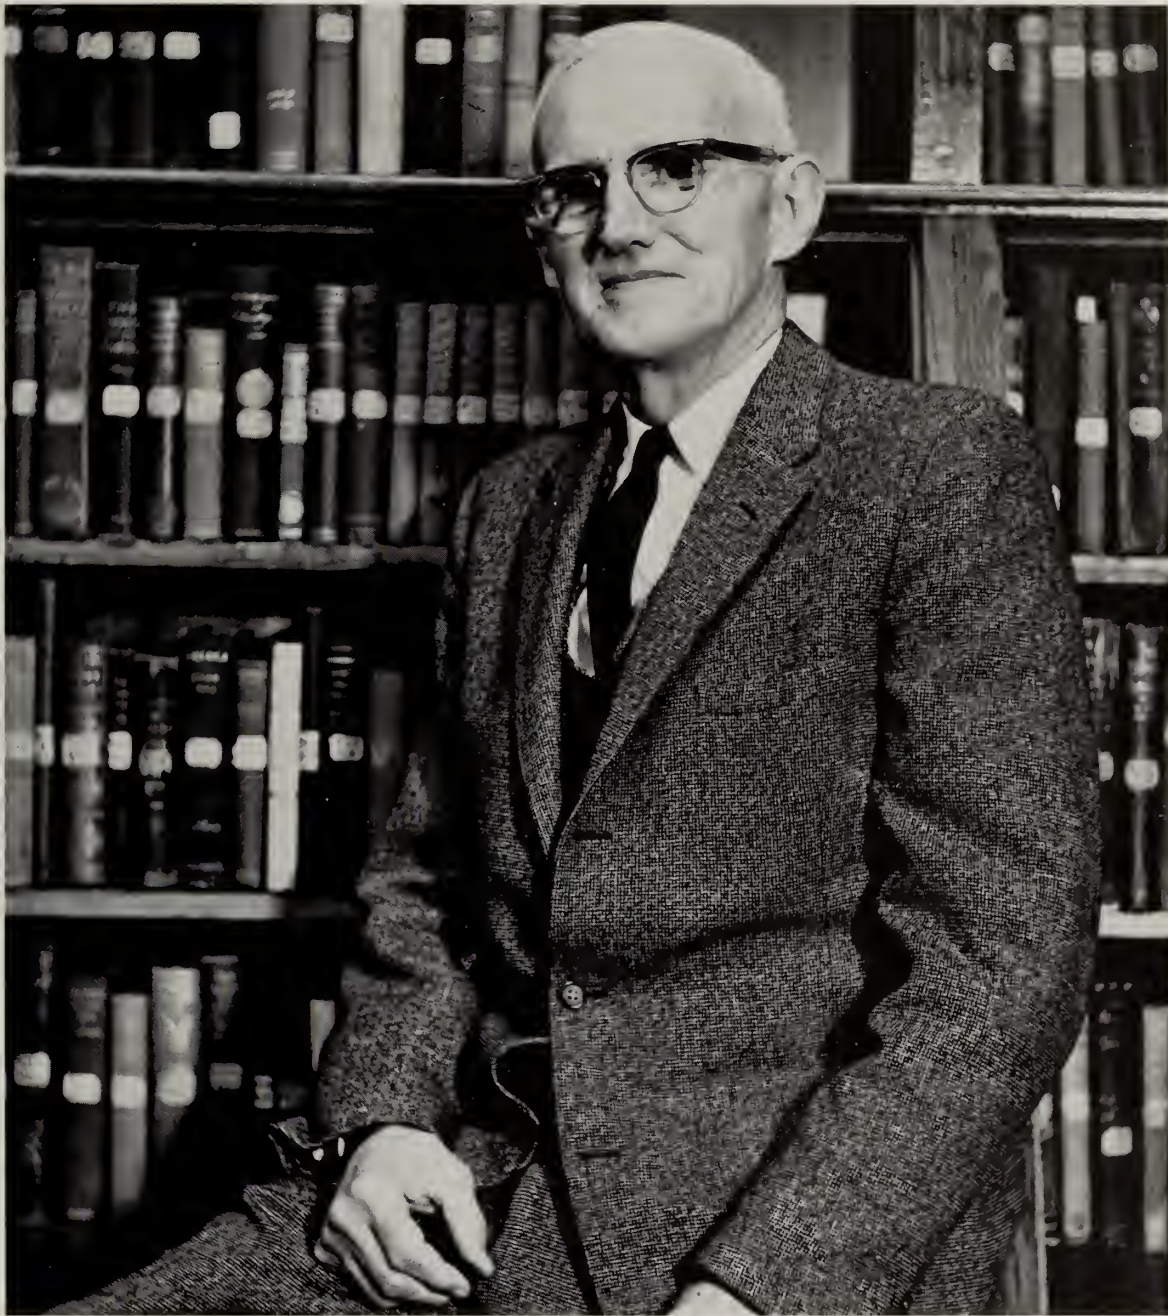

The Bradford Durfee campus was the smallest of any accredited college in New England. Mr. Holland, past President of Bradford Durfee College said, "Many people, especially staff members and students, labored for countless hours to bring about accreditation. However, accreditation would not have been attained without the planning, advice, foresight, and long hours of work contributed by this man."

His advice in the guidance program, administration, faculty planning and selection, student health program, improvements in the course offerings of every department and proposals for strengthening the library has elevated the stature of our facilities to complement the dedication of our faculty and the integrity of the entire college. Never has this man hesitated to offer himself when asked for advice by the students, faculty, or college.

When the Alumni Association was in need of assistance, this man not only gave his advice, but edited and published the Alumni Bulletin giving complete information on the activities and achievements of Bradford Durfee College and Southeastern Massachusetts Technological Institute and projecting their future course.

The class of 1965 is honored and proud to dedicate their yearbook to Errol L. Dearborn, B. Pd., Ed. D.

DEDICATION

ERROL L. DEARBORN, B.Pd., Ed.D.

PRESIDENT'S MESSAGE

The academic year 1964-1965, has been one of fundamental change at SMTI. Our school has traditions which go back to 1895, yet you are members of the first graduating class whose degrees will carry our college's name. I am sure that you have been keenly aware, during your upperclass years, of the dynamic changes taking place within our college. Great structures are rising on our new campus in North Dartmouth. Enrollment is accelerating. Many new faculty members are constantly appearing in our laboratories, classrooms, and lecture halls. Excitement, hopes and aspirations increase almost daily. The future of our college is rich with promise.

I do hope you will remember through all of your days after graduation that the greatness of a college is determined more by its graduates and their achievements than by any other factor or combinations of factors. A new campus, new buildings, new equipment and expanded faculty, a great library, and all the other benefits we enjoy or expect soon to enjoy, are nothing compared to the degree of honor, service and success you achieve from this time forward.

In your hands is SMTI's future reputation. Go forth, and with your fellow graduates, past, present and future, tell the world by deed and word and work that your college is one of excellence. Take with you my every best wish for a full, productive and successful life.

Sincerely,

A handwritten signature in cursive script, reading "Joseph Leo Driscoll". The signature is written in dark ink and is positioned below the word "Sincerely,".

PRESIDENT

JOSEPH LEO DRISCOLL, B.A., M.A.T., Ed.D.

"... WE MAY OUR
ENDS BY OUR
BEGINNINGS KNOW."

Sir John Denham

The unending strain of class work can be lessened in many ways. Diversion is an integral part of learning for life. A happy balance between work and play helps mold students into worthy adults. The props vary . . . A Quiet Walk . . .

An Evening's Pleasure . . .

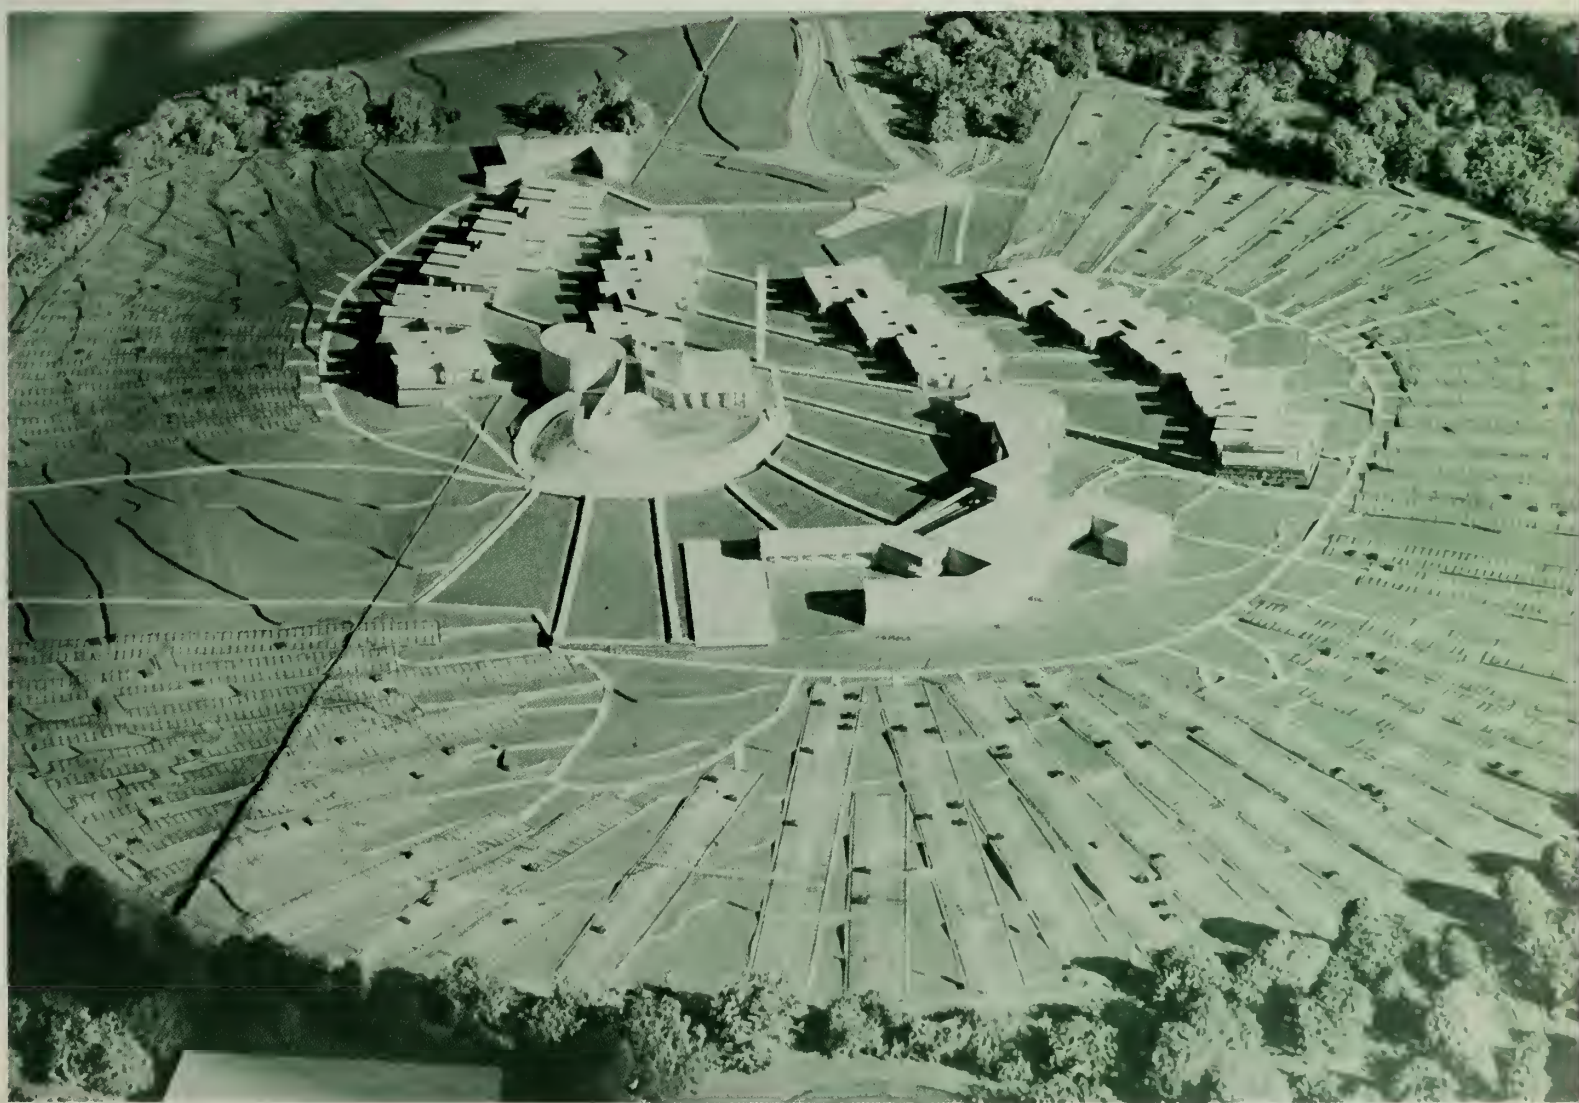

A Tense Moment.

The face of a new campus is growing in stature.

Although we . . . the graduates of 1965 . . . have not attended a class in our new facilities, we have been privileged to be present at the "Alpha" of our Alma Mater.

Activities

Student Council

The official student government of S.M.T.I. is the student council. It is the students representative to the administration of the college. To this hard working group are brought all manners of student grievances and requests. They are to judge the advisability of either rejecting or presenting articles to the administration and to intercede for the students in all dealings with the administration.

Their main concern, this past year, has been with the coordination of the student councils of both branches of S.M.T.I. Before the final draft was completed many a "constitutional convention" broke up with threats of "seceding from the union" coming from both sides.

They have undoubtedly insured the college of democracy and justice for a long and successful future.

Clockwise from top: Advisor, Mr. Sasseville; Don Solmon; Tom Leonardo; Ray St. Michael; Gerry Galego; President. Peter Kaminski; Ulrich Gehrike; Wilma Pinckney; Peter Silvestre; and Bill Costa.

The Campus Life

What can I say!

Torch of Love.

Manny strikes again!

What do you mean, you have another boyfriend?

Side pocket.

"Darn slobs!"

What do you mean my legs will shrink?

Clear the way.

You think this board will hold them back?

Are you sure this is the final?

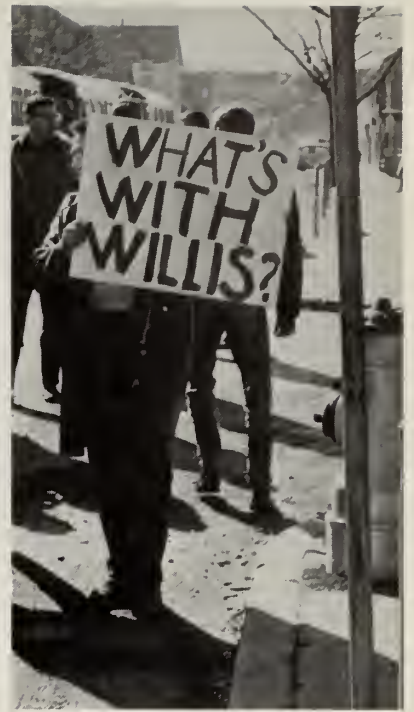

What goes up . . .

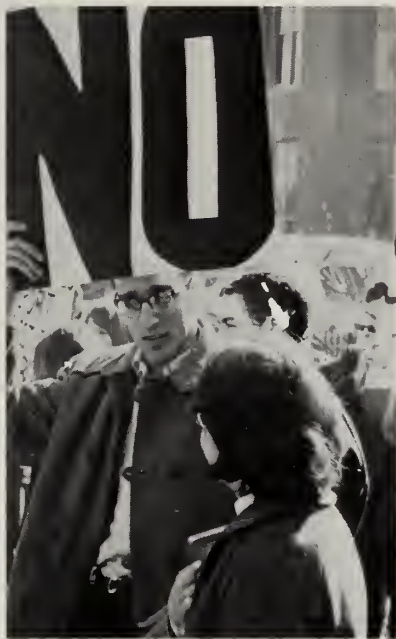

Right out of VOGUE.

The vigilante committee to string up Willis and Harrington.

In anticipation of a savage fight in Boston, SMTI students marched through Fall River stirring even more interest in the future of SMTI.

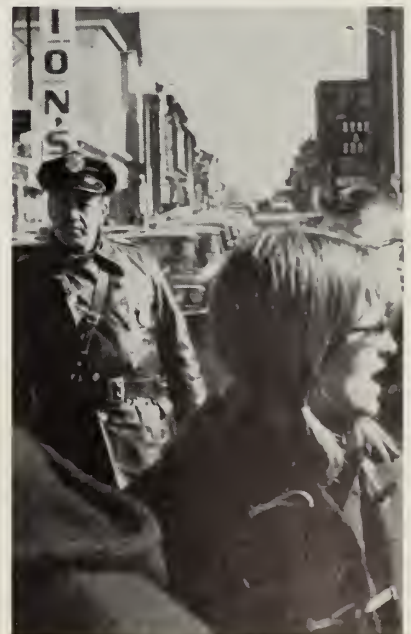

Negative, of course not, positively not, absolutely not, under no circumstances

"It's as simple as two plus two" the math department says, "we need liberal arts."

"Liberal arts without U-Mass" — the battle cry

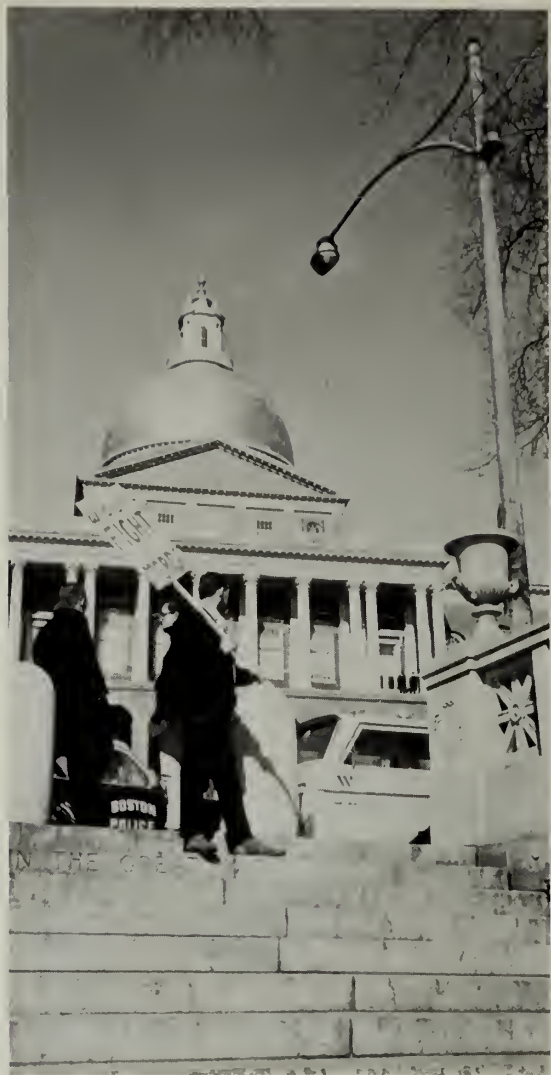

Here we go again.

An S.O.S. for S.M.T.I.

Nearly one-thousand S.M.T.I. students marched on the state house in Boston raging a protest against House Bill 3300 and the Willis Report. The orderly demonstration drew congratulations from S.M.T.I. administrators and even Senator Kelly, the Ways and Means Committee Chairman.

Another great war on the same battle ground

Fighters for a future

The enemy

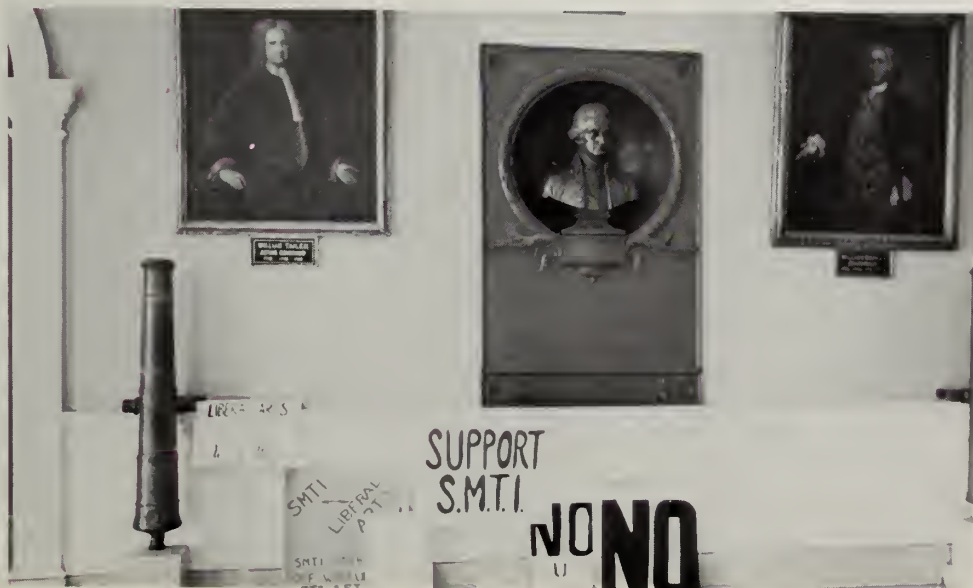

The Valiant Warriors

"We won't have to take the elevator, they're giving us the shaft"

The battle of Beacon Hill. "Don't fire until you see the whites of their eyes"

CLASS HISTORY

We did not flag or fail. We went on until the end. We fought on the sidewalks and stairs. We fought in the halls, we fought in the classrooms, we fought in the auditorium, we fought in the laboratories and in the cafeteria. We defended our class whatever the cost might have been, from the overwhelming odds of the upperclassmen.

Members of our freshman class took positions on all athletic teams, including intramurals. The freshmen instantly became the social magnates of the college. A surprising number of us appeared on the Dean's List. On all facets of collegiate life, we displayed excellence.

With the announcement of accreditation for BDCT, we were among the most active celebrants, knowing the worth of such an honor even in our early years. In February, we were rushed by the fraternities, and suffered the torments of pledge period with the stoicism of Seneca. This first year showed the promise that the succeeding years would prove above all expectations.

As Sophomores, we again dominated the campus scene. The novelty of college life had long since worn off. The class of '65 had now been fused together with the solder of determination, predestined to rise among the greats in history.

We cheered louder at the basketball games, danced better at the parties after the games, and studied harder than any of our fellow collegians. A course in Medical Technology was instituted which greatly increased the number of coeds at BDCT. Epsilon Phi Pi got a new fraternity house, and Phi Psi's mascot married the former Miss Jugs-a-Rum. The Talker grew from a two-page news sheet to a four page newspaper. Students began wearing ear-plugs to deaden the sound of the pile-drivers working on the "Manny Braga Bridge."

Our Junior year saw BDCT being transformed from the smallest accredited college in the United States into what will eventually be a great university: SMTI. What had been only an idea in the minds of Boston's bureaucrats and cause for student marches on the state house was becoming something real and great before our eyes.

Kappa Sigma Phi's mascot was stillborn at Billy's Crossroads. A new sorority, Chi Delta Phi, was introduced to BDCT sparking an unprecedented rivalry among the coeds which increased social activities and augmented school spirit to staggering heights. A college weekend featuring "Trini Lopez," "The Brandywine Singers," "The Big Three," and a ferry ride with the "Cyclones" topped off the year with an explosion that rocketed us into OUR SENIOR YEAR.

A new sign hung at 64 Durfee Street: "Southeastern Massachusetts Technological Institute". Though we were still in the same buildings, we recognized the changes that had been and still are taking place. A number of new faculty members had been added. Our library was changed from the Dewey Decimal to the Library of Congress System. Our administration's headquarters were in Dartmouth, and our classmates included the members of New Bedford's defunct NBTI.

Phi Psi got a fraternity house, Kappa Sigma Phi took a trip to New York, Epsilon Phi Pi kept the social life of the college in full swing, and Chi Delta Phi kept the college aware of its lovely coeds. The Talker grew to six pages. The Technolog changed its name to the Hexagon and then changed it again.

We have faced the "last judgment" of senior finals and now stand on the threshold of the unknown, prepared for our respective positions and thankful to our Alma Mater for that preparation. As the first graduating class of SMTI, we have given fine example to those who follow. If they only emulate us that will be sufficient for reaching magnificence in any and all of their undertakings.

Yearbook

The magnificent record of SMTI's first year which you are now reading is a product of that notorious crew—The Yearbook Staff. Throughout the year they have compiled and edited all sorts of information about SMTI, its faculty, students, organizations, and activities.

You couldn't have passed the year at SMTI without coming into contact with one or more of the staff; whether it was Ken Daby saying "Hold it" as he snapped your picture, Ed Mendes or Maury Wells begging you to solicit ads to finance the book, or one of the other members who tried to get information concerning the activities in which you take part.

There were many "unsung heroes" working behind the scenes all the time drawing sketches, arranging photographs, writing and editing articles. The result is the best yearbook that has ever been published: "The Alpha 65." We hope you like it. GOYA.

"They don't wear hair like that in Washington."

TALKER

D. Solmon, L. Babin, F. Sayward, W. Lyons, R. Whitehead, R. Faris.

The Talker is currently in its ninth year of publication as a student newspaper. During the course of its history, it has developed from a simple one-page bi-monthly news sheet to its present form of four pages weekly. Due to increased student interest and to the enthusiasm of the staff, the Talker may have been enlarged still further by the time this yearbook is in your hands.

The Talker publishes the news of weekly events but its primary function is to voice student opinion, humor, and commentary. Students are encouraged to submit creative writing as well as opinion. As a result of this policy, each issue of the paper covers many fields of student interest.

One of the outstanding characteristics of the Talker has been the enthusiasm of its staff. This enthusiasm constitutes the main reason the writing and artwork have a vigorous and interesting style. The only "dull" material in the paper is the news.

In short, the Talker is not merely an "official Newspaper," it is a college newspaper! It seeks to broaden the student's intellectual environment and to stimulate interest in his physical environment. This is the Talker tradition and we do our humble best to live up to it.

"WE ARE THE GREATEST"

Per order of the President the activities fee is now . . .

Technolog

The official student newspaper at the Fall River branch of SMTI is the Technolog. It is distributed monthly to the student body and the alumni, carrying all the news and events of the past month along with announcements of things to come. Candid photos of college functions are featured. Students and faculty express their views on varied subjects and creative writing is also found in our paper.

Staff membership is open to all students who are willing to take an active part.

First Row: N. Mullen, J. Braga, S. Partington, T. Couto, A. Ruddick. Second Row: R. Plouffe, R. Chouinard, L. Bernier, G. Barnwell, J. Gazarro, Mr. Wilson. Third Row: M. Roy, A. Provost, S. Chafitz, R. Rodrigues, H. Thiboutot, D. Velozo, G. Peckham.

American Chemical Society

Presenting a varied program of activities fostering an interest in Chemistry and the related sciences is the Chemistry Club of S.M.T.I. One of the high points in the year's activities was the annual lecture given by Dr. John E. Newmar, a member of the faculty at Brown University. Dr. Newmar's topic was "The Four Biphthalytes." In addition, the club carried on its usual program of student lectures, films, and field trips, such as the one in December to Tracer Labs in Waltham, Massachusetts.

The society expects in the near future to merge with the New Bedford branch of the American Chemical Society and will be the nucleus for the Southeastern Massachusetts Chemical Society.

Front Row: G. Pietruska, R. Fyans, R. England, H. Guay. Second Row: C. Mills, G. O'Connell, J. Davis. Third Row: T. Nasser, R. Boruch, R. St. Amand, E. Rockwell, A. Dunnigan, R. Szaro, Mr. Wu.

American Association of Textile Chemists and Colorists

First Row: D. Medeiros, D. O'Connell, R. Rodrigues, N. Thran. Second Row: Mr. Medde, N. Almeida, U. Gehrke, S. Chafitz, G. Pelagio, R. Pavao. Third Row: D. De Mello, W. Armburg, G. Peckham, D. Fitzgibbons, D. Sullivan, R. Chouinard, D. Velozo, A. Mello.

The A.A.T.C.C. established a student chapter at S.M.T.I. in 1948. Membership is open to any student with an interest in the Chemistry of the textile industry. As a part of its program the chapter invites men from the industry to come before its members and lecture on diverse topics related to the field. These lectures benefit the student member by adding to his knowledge, increasing his understanding of his college work, and further by relating the application of his college training to industry.

American Association for Textile Technology

In 1963 Professor John Stickler founded the Fall River Chapter of the American Association for Textile Technologists. This organization began with 26 members and increased its membership to 66 in 1964. The main objective of the organization is to familiarize the students with outstanding people in the textile field.

First Row: R. Gomes, G. Peckham, D. McGee, D. Valozo, J. Barnwell. Second Row: Mr. Stickler, N. Almeida, D. Fitzgibbons, S. Chafitz, C. Pelagio, R. Pavao, N. Thran. Third Row: D. DeMello, D. Medeiros, W. Chouinard, D. O'Connell, D. Sullivan, A. Mello. Back: R. Rodrigues, U. Gehrke.

First Row: N. Lavoie, R. Tanguay, H. Pineau, E. Berman. Second Row: R. Dugan, J. Hinchcliffe, E. Dessert, M. Brown, R. DeMello, L. Flores, S. Mukul, Mr. Stickler. Third Row: P. Plamondon, J. Finkelstein, A. Redfern, R. Deston, W. Kirkman, P. Considine, R. Brodner. Back: M. Roy, R. Maltais.

Varsity Club

The Varsity club is an organization composed of athletes who have earned a letter by participating in one of S.M.T.I.'s major sports.

The club meets monthly to discuss future athletic events and the state of its treasury.

Plans have been formulated to raise money through dances, parties, and other social events.

In February, the athletes are feted by the college at White's Restaurant. Members receive their letters and other honors that they have earned at this function.

Win, lose or draw, the members of the varsity club have always given a good account of themselves on and off the playing field. Their desire to win and their sportsman-like conduct are a credit to them and our college. No other organization builds such character while helping the student to get away from the everyday grind of studying and homework.

First Row: A. Demary, G. Pacheco, R. Deveau, P. Silvestre, K. Reback. Second Row: L. Orabona, G. Pavao, W. Costa, M. Wills, R. Boruch.

First Row: R. Gomes, R. St. Michel, M. Bshara, G. Peckham. Second Row: C. Richard, F. Cabral, E. Dessert, W. Perry, R. DeMello, F. Cabral. Third Row: J. Donnelly, D. Solmon, R. Goyette, W. Pelton, P. Pamondon, F. Cabral. Fourth Row: R. Szaro, M. Roy, E. Petrilak, E. Katersky, R. Whitehead.

Cheerleaders

S.M.T.I.—RAH

School spirit is a vital element to any college. The most effective sowers of school spirit in our college are the cheerleaders. They are always on the forefront of college activities, symbolically instilling school spirit into the hearts of the students.

Long hard hours are used in practicing the various cheers and choreographing the various drills and acrobatics into a synchronized form. They can often be found in empty classrooms after class, rehearsing their routine in preparation for an upcoming game.

On the basketball court they cheer, jump, and twirl, leading the spectators in a plea to the players for superhuman performance in the game. If the result is not in S.M.T.I.'s favor, they often are reduced to tears, exhibiting the feeling of the students who are less uninhibited than they.

Kneeling: Cathy Costa, Charlette Kalil, and Cathy Rogers.
Standing: Jennie Gazzero, Terry Couto, and Paulette Gamache

Radio Club

In its first year at SMTI the A.R.C. was formed last fall by a group of students interested in amateur radio. The purpose of this club is to contribute to the advancement of amateur radio in the college as well as in the community.

Licensed operators are able, in their free periods, to utilize the equipment of the station and talk to other "hams" throughout the world.

The radio club is open to any student who has a sincere interest in amateur radio, a person need not hold an amateur radio license to join but it is hoped that he will eventually become a licensed operator.

F. Colaneri, K1IWE; S. Chafitz, K1GSM; R. Fiero, K1WKG; D. Menard, WA1BYJ; M. Coderre, K1WHA.

Engineering Society

First Row: R. Goyette, D. Garcia, J. Dias, J. Kenny, R. Fiero, A. Johnson. *Second Row:* F. Cabral, T. Andrews, P. Silvestre, Mr. Steward, E. Waterman, W. Costa. *Third Row:* J. Donnelly, H. Bartley, K. Rapoza, G. Pacheco, G. Courcy, R. George, D. Ray, R. Dennis, D. Borden. *Fourth Row:* K. Plant, D. Turner, R. Whitehead, J. Katz, E. Cote, L. Babin.

Membership in the Engineering Society is open to all students enrolled in the Engineering curriculum. The primary objective of the society is to provide an opportunity for members to increase their knowledge and their interests in all phases of engineering. The second objective is to create a bond of common interest and fellowship between the members.

In addition to monthly meetings, club members enjoy a variety of activities such as: special films; joint dinner meetings with the New Bedford branch, featuring guest speakers; and field trips to places of engineering interest such as New England Power and Balswin Liina Hamilton.

Cosmopolitan Club

This club has been formed with an aim to promote better mutual friendship, international understanding, and spirit of co-operation among foreign students and students who are native born.

The club organizes cultural shows and entertainment programs which are interesting as well as informative and educational.

It is also the purpose of the club to help incoming foreign students to become adjusted to the American way of life.

The membership includes both U.S. students and students from abroad.

I.E.E.E.

The purpose of the IEEE is to give students in Electrical Engineering a vivid picture of the electrical industry, and to keep them up to date with the latest technological advances in the field. A student affiliate of the Institute of Electrical Engineers is privileged to attend any and all functions of this international organization, such as the great exhibit of new machines and applications at the New York Coliseum last Summer.

Many field trips are made by the organization and monthly meetings are held at which prominent people in the field speak about their work. Often movies are featured and doughnuts and coffee are served following every meeting.

First Row: R. Leng, G. Belano, S. Farris, G. Poisson, T. Andrews, R. Leonardo. Second Row: W. Anderson, R. Brabant, M. Coderre, R. Landerand, J. Gonzalez, D. Menard. Third Row: M. Kierom, M. Management Club

First Row: E. Barker, G. Galego, E. Mendes, B. Perry, P. Cantin, B. Alosi, R. Levesque, F. Cole. Second Row: Professor W. Wild, G. Costa, E. Stevens, E. Foley, S. Kozikowski, W. Bolinder, R. Condon, J. Pacheco, W. Cox.

The Management Club is the business student's organization in which he has the opportunity, through luncheon meetings, field trips, and special business seminars, to listen to and become acquainted with members of the business community. This helps the student by contact with business leaders, and helps the college by developing an awareness of the school, and particularly of the business department, to the local business and government leaders. Through the Club, the members may gain membership in the American Management Association.

Glad you're home, Sis.

Please say you'll be mine.

I'd rather switch than fight!

The Cosine + Deviation = Pocket

Gee! I'm sorry about last night.

Chug and Jugs have a new beach blanket.

Try the switch

96 Bottles of beer
on the wall,
96 Bottles of beer . . .

Gee! That's good soda pop.

But the key doesn't fit!

The President speaks,
"UUHHHHHHH!"

Our
business
meeting,
Hup 1-3-5 . . .

I've got this cream-puff on the lot, and . . .

11:55 P.M.

Simple! 1,2,3.

Which one
has the
mickey?

Epsilon Phi Pi

Freedom, Friendship, and Fidelity—three words—individually they have their own unique meaning, together they mean Epsilon Phi Pi. To be a member of Epsilon, you must give each the same amount of weight so that they will combine to cause an impact which will be doubted by no one.

We promise nothing but to promote sincere fellowship. We do this by working together, studying together, and socializing with one another. The important word here is together. There is no one outside of the working body of Epsilon, for Epsilon is everyone, every devoted, hardworking,—BROTHER.

What girl walking down the stairs?

Two heads. One thought?

One head.
Same thought?

The Bobbin Brigade

Open wider!

Only five more miles

Here we go again

Home, sweet home.

Kappa Sigma Phi

Jean Cazarro, Social Chairman; Charlotte Kalil, President; Virginia Fonseca, Corresponding Secretary; Kathleen Costa, Vice President-Treasurer; Theresa Couto, Recording Secretary.

Kappa Sigma Phi Sorority, Gamma Chapter, was the first sorority established at Bradford Durfee College, now Southeastern Massachusetts Technological Institute. It is the purpose of our sorority to join in fraternity, women of like interests and ambitions with a common desire for the exchange of knowledge and encouragement of ideals and sincerity. Therefore the words in the name of our sorority each have a meaning: Kappa for Knowledge, Sigma for Sincerity, and Phi for Fraternity. It is our hope that Kappa Sigma Phi Sorority will continue to grow and flourish in work and enjoyment that we, as members, have had the opportunity to share.

Charlotte Kalil

First Row: N. Miranda, A. Ruddick, P. Zapasnik. Second Row: J. Gazarro, C. Kahil, K. Costa, C. Rogers, T. Couto, L. Bernier. Third Row: V. Fonseca, W. Pinckney, C. Whowell, G. Paquette, A. Kateriewitz, N. Russell, D. Wood.

It's gone

I didn't take it!

I'm innocent

To tell you the truth . . .

I bet . . . took it!

Of all people

Crime didn't pay.

Sign once, honey!

Skin you love to . . . !

You want me to drink that?

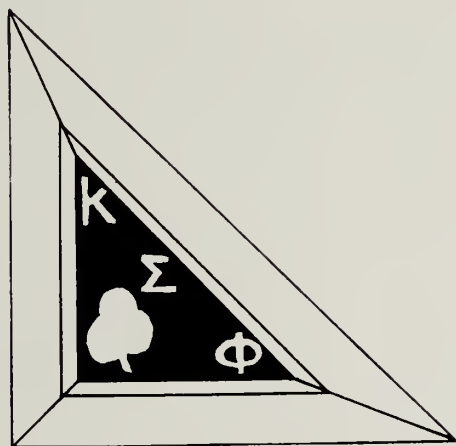

KATHY, count the money again!

Mirror mirror on the wall

Jeannie!

So, what else is there?

Chi Delta Phi

Chi Delta Phi Sorority is comprised of nine sisters majoring in the fields of Math, Textiles, Medical Technology, Art and Mechanical Engineering. Established in March of 1964, Chi Delta Phi stands for friendship, service and democracy to our college and the community. All members work together to uphold these standards.

Traditional colors are pink and white, and we hold the chrysanthemum as our selected flower.

Activities include a Christmas party, a dance, and an annual car-wash.

First Row: Janet Rolfe; Shirley Hargreaves, Pledgemaster; Carolyn Albino. Second Row: Arlene Dutra; Merle Hopkins, Treasurer; Diane McGee, President; Barbara Contois; Deborah Frost, Secretary.

Personally, I don't care what you think.

Where's the waiter?

Look at that rascal swim!

One part lime, two parts vermouth . . .

S.M.T.I. Chorus

A new addition to SMTI has been the SMTI music department. Led by Josef Cobert, the students of SMTI are being brought a cultural element that has long been neglected in the parent institutions of SMTI.

With the music department has come a choral group and an orchestra; two groups of students who give unselfishly of themselves to anyone who is willing to listen. Mr. Cobert also serves as the conductor of the New Bedford Symphonic Orchestra.

After Hours

Do you think this record will last much longer?

I'm sorry, Bill, you can't have another shot.

Officer Gonzalo, is it raining out?

A Man!
Where?

Where's Peter?

But, Grandma, what funny ears you have.

A break in the nearly ceaseless drag of studies was afforded by Chi Delta Phi's dance at the K. of C. Logan Doane entertained the throng with his proficiency in hypnotism.

Everyone enjoyed the well-intended humor although a few were left with red faces and other parts.

I shot an arrow into the air . . .

Forget her, fella, she's not the only fish in the sea.

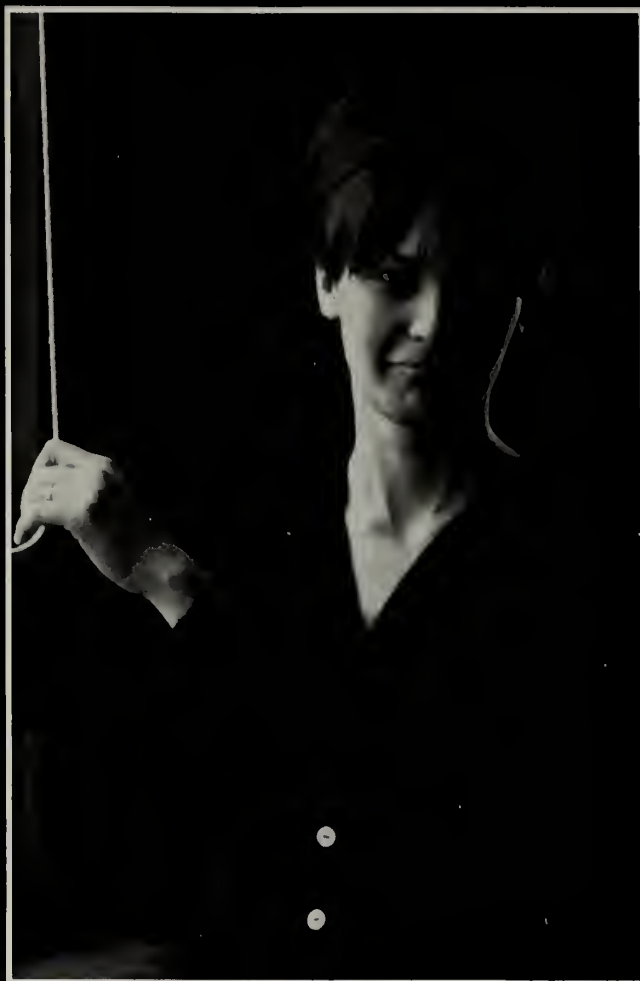

Look, Ma, no cavities!

Jazz

One of the highlights of the "Humanities Series" was the jazz concert presented by the Herb Pomeroy Quartet. Father O'Connell, who was supposed to prelude the show with a short lecture about the origin and development of jazz, was unable to attend because of a sudden malady.

Nevertheless, we were treated to some of the best original compositions of modern jazz that could have been offered. Though the Humanities Series has often been criticized for presenting uninteresting material, only praise was heard following this event.

Athletics

Soccer

Paul Cullen, our new soccer coach, did a remarkable job fielding such an aggressive and spirited team. Although our "Booters" in this past season did not chalk up a particularly impressive record, the future looks bright. The addition of some fine first year men, plus the talents of Coach Cullen indicates much success on the Soccer field in years to come.

John Donnelly prevents another attempt to score on the Engineers.

Coach Cullen switches defensive plays.

Damrong Binsri points the way.

Roger Deveau halts a Barrington drive.

Another steal for Russ Gomes.

Heads-up!

Great save Mike.

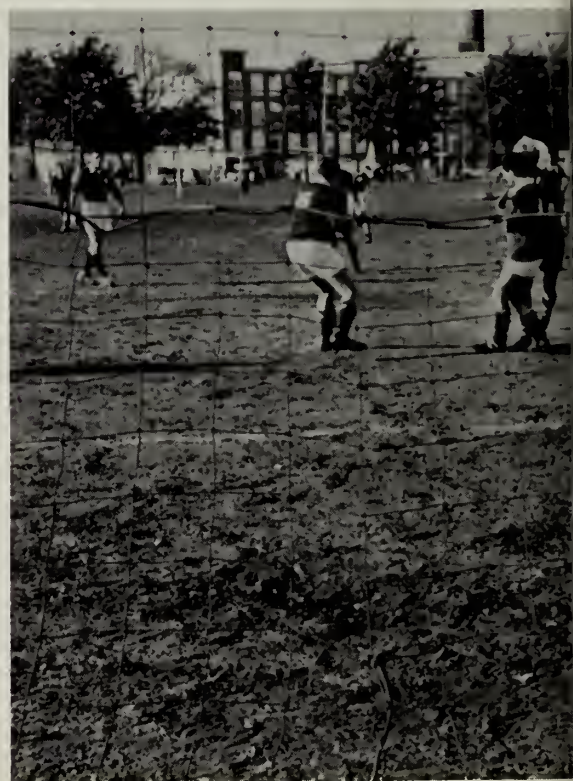

Those small fellows can give you a lot of trouble.

Don Klimka, our senior vet, dribbles through the defense.

Kick the ball buddy, not me.

Keep your eye on the ball.

Get those eyes open Will.

A taste of victory.

Oh, Mike, not again.

Track

The SMTI Track Team, although small in number, is a giant on the field. The members of the team spend long, hard hours in training and the recognition they receive is far less than the team deserves. Every member of the team contributes their utmost. Meet after meet these dedicated athletes carry the honor and prestige of Durfee College to greater heights of admiration throughout the area. The absence of a full time coach and often ill equipped, the team shows its determination and talent at every meet.

Salamon the shot, streaks down the track in the 220.

Bill Perry leads the pack in the 1500 meter.

John Postligone shows his Grecian form in the javelin.

Don Solomon shows the fine form and effort, which has won him the recognition as an excellent athlete.

If this discus was only a few ounces lighter

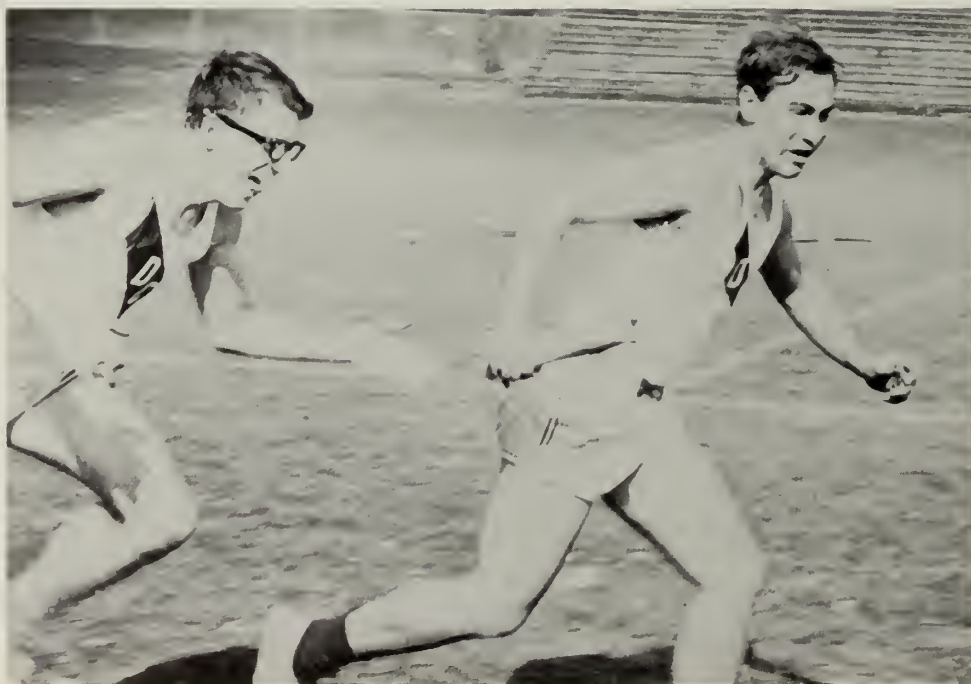

Bob Maltais hurls the shot put with all his strength.

Bob Maltais exhibits the deep concentration and excellent poise a fine shot putter must possess.

This the backbone of our track team have earned the respect and admiration of all area teams.

Don't worry Don, Walt won't drop it this time.

. . . Three, two, one, fire—John puts another Javelin in orbit at the Bridgewater track meet.

Posty thrusts the shot into the blazing sun.

George Peckam sucking wind in a wild 100 yd. dash.

Fencing

A magnificent disembowelment.

Watch out for the guy with the black cape.

Coached by Professor Williams, the SMTI fencing team had another extremely successful season. Daily practice paid off for the fencers who met top-notch competition throughout their schedule.

SMTI fencers face such outstanding teams as Harvard, MIT, and other leading Ivy-league colleges and universities. These valiant men, who get their scars at the Fall River YMCA, are outstanding competitors in all classes, be it sabre, rapier, or epee.

Wipe the blood off, please.

Look, fellas, let's just cut it up into nine pieces and we can each have some.

If I wasn't tied to this dog house —

Charge

Don't cross that line.

His pants are kinda big.

Touchee?

Don't look now but . . .

Golf

Quick! Somebody grab the pin.

The SMTI golf team otherwise known as the "fearsome foursome" meets head on all competition. With "drive for show" and "putt for dough," Captain George Pacheco leads the team against all comers. Ray Gagnon, Maurice "Chevalier" Wills and Lee L'Archevesque are the other three fine golfers that make up the "Four-some". Rain or shine, wind or cold the SMTI golfers trudge on to ever increasing

success on the links. With their "U.S. Tiger" golf balls and four practice rounds, which are generously paid for by the school, the golf team shows its excellent depth and consistency at all its matches. With graduation coming the "Fearsome Foursome" will vanish from the annals of SMTI golfing history, leaving an excellent record for a fine incoming team to carry on.

It takes more than a stare, George.

If I only had my B.A. slide rule.

I knew we were going to score.

Basketball or Track?

Basketball

The SMTI basketball team, under the adroit leadership of Coach Phil Wetterland, had a good season. Although the team started off sluggishly, their new uniforms gave them added momentum and the team finished off the season winning a comparatively fine percentage of their games. The SMTI Hoopsters, led by the sparkling play of team captain Maury Wills, defeated some of the conferences' better teams.

Two more points.

Each and every game the team gave their upmost. There were many tremendous individual and team efforts throughout their teams rigorous schedule.

Adin Demary, Gary Drewniak, Scott Kreiger, Jeff Murphy, John Donnely, all were outstanding in their contributions to the team efforts.

Gerry (T.C.) Pavao, the team's student manager, gave the team tremendous moral boosts all through the season. His unique encouragement methods will not soon be forgotten.

With a strong experienced bench, S.M.T.I.'s basketball future is bright.

"Thay" Fellows!!!

When I was Captain of the team . . . !

You wouldn't believe it!

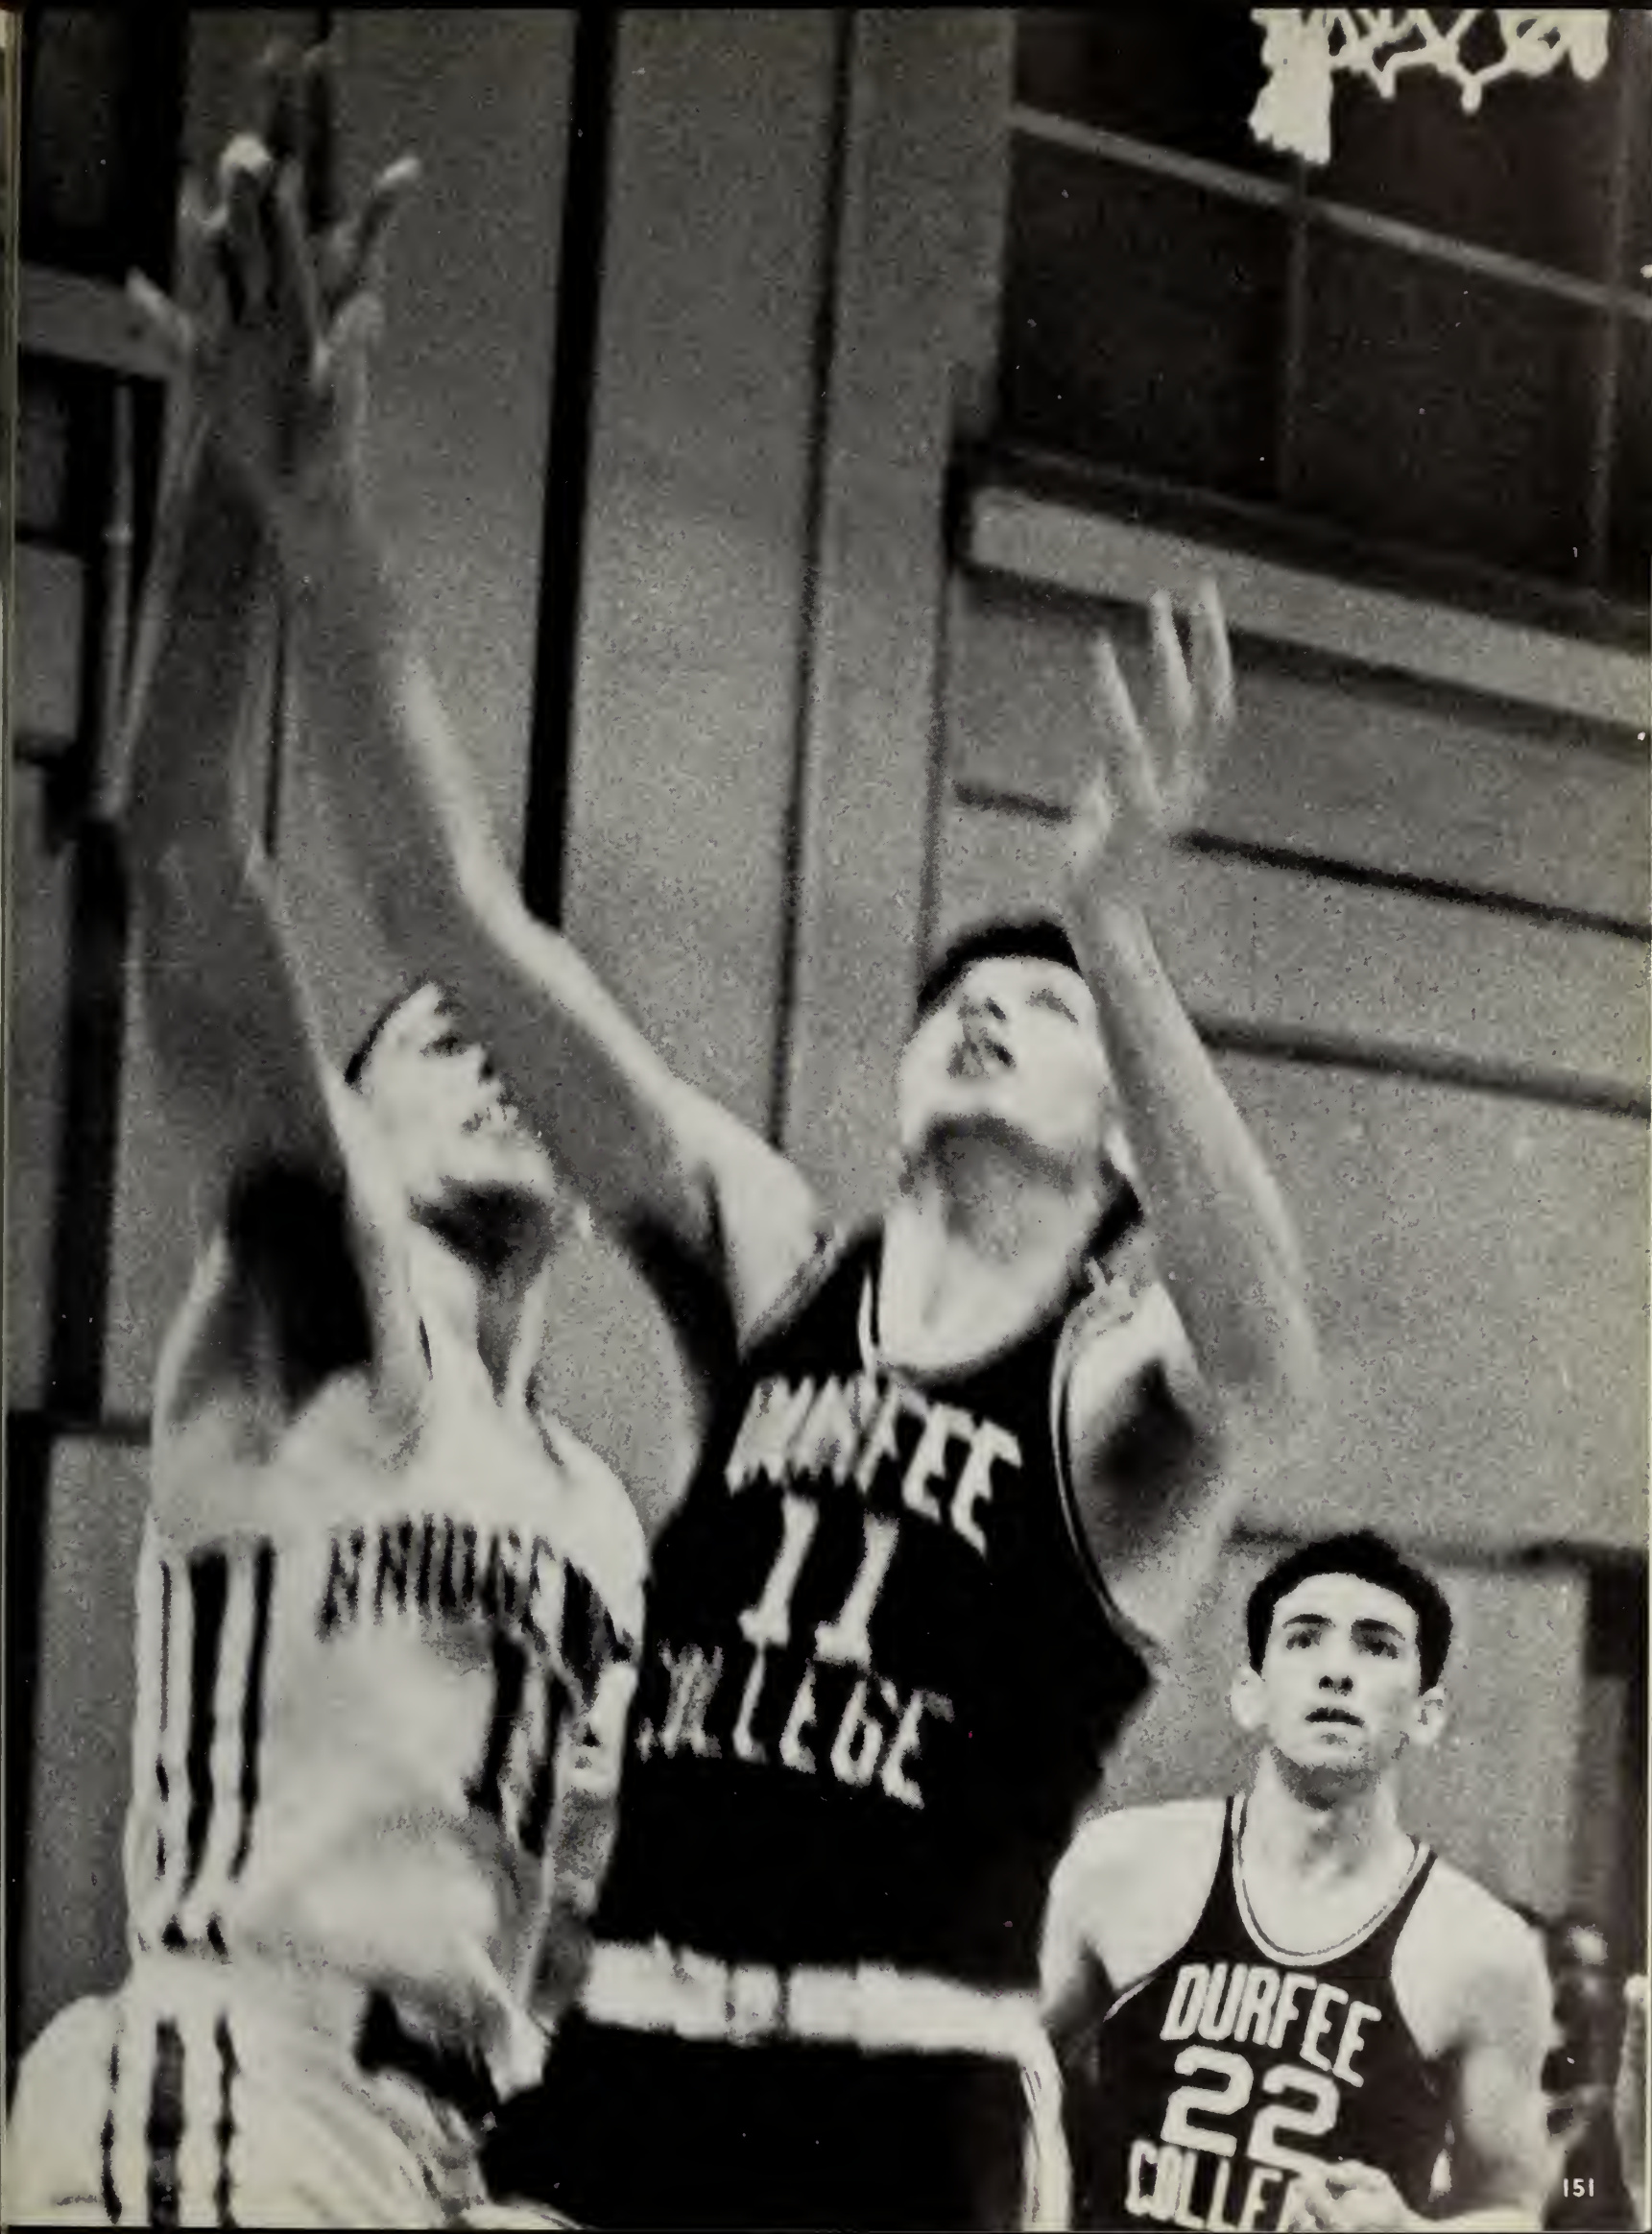

Down the court.

Listen. No more alibies . . .

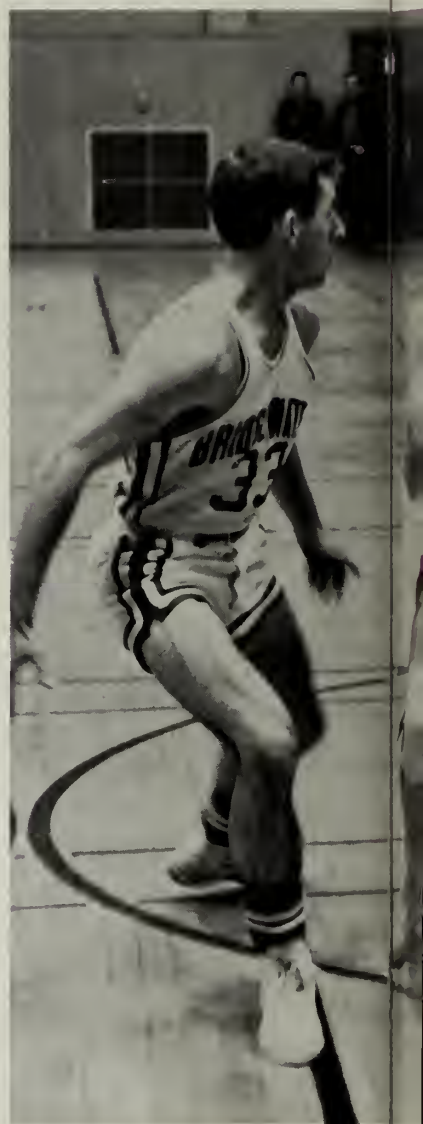

Defense presses in!

Here's the secret.

You bet

How about it coach.

I am!

Assistant Coach?

What a team!!!

Four
more
points
for
the
win!

Dear Graduates:

The day, that four years ago seemed to be too distant in the future to think about, is now upon you. The long hours of study, the monotonous routine day after day, and for some, the financial hardship are finally coming to a close. Graduation Day is fast approaching—this is "your day".

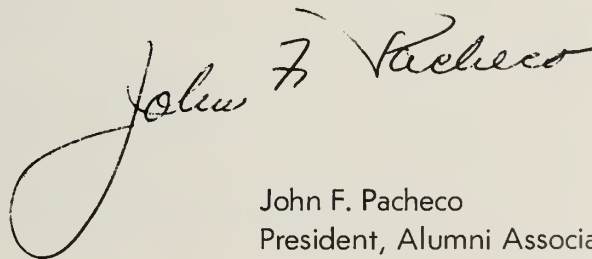

Being the first class to graduate from the Southeastern Massachusetts Technological Institute will be an honor. In the future, this Institute will be a living symbol to education, a symbol which you are helping to form.

Most of you will soon be leaving the familiar area of "hills, mills and pork pies" for a new location and the beginning of a new phase of your life. You will have the education to compete among the best in your field of endeavor. The ladder of success is a difficult one, but it can and will be climbed.

As you leave the college, you will be taking not only an excellent education with you, but many memories. You will soon find that most of your classmates have scattered and that your memories are fading. The purpose of the alumni association is to keep the graduates in touch with old friends and to restore those wonderful memories. Each year the alumni has a banquet and business meeting for the sole purpose of the graduates to get together and enjoy themselves. We hope that this will be one event each year in which you will participate.

The alumni association of Bradford Durfee College, soon to become the alumni association of Southeastern Massachusetts Technological Institute, wish to extend our congratulations to the graduating class of 1965.

Sincerely

A handwritten signature in dark ink, reading "John F. Pacheco". The signature is fluid and cursive, with a large loop at the end of the last name.

John F. Pacheco

Special TEXTILE DICTIONARY for **BEST RESULTS** in Textile Processing

C

Corobex (Kôr 'a-bex)

A durable anti-bacterial additive for textiles. Provides fixed, lasting protection against germs, mildew, perspiration odors and other odors of bacterial origin.

Easily applied during dyeing or finishing operations. Will cause no shade change in dyed and printed colors, no yellowing of whites. Does not affect the hand of the finished goods. Compatible with most types of finishing materials.

D

Discollte[®] (dĭs/kō . lĭte)

Concentrated sodium sulphoxylate formaldehyde available in lump, pea, rice or powder form.

A powerful reducing agent, stable at high temperatures. Widely used to effect reduction and solution of vat colors, and for discharge effects when applied to colored grounds. Effective when mixed with vat colors and discharge pastes wherever the reducing agent must retain its reducing power after being dried into the fabric.

Dispersall (dĭs . pŭr/sal)

A long chain ethylene oxide condensate in the form of a colorless, neutral, somewhat viscous liquid. Fully resistant to hard water, and miscible with water in all proportions. A retardant and leveling assistant in vat dyeing.

Used widely as a dispersing agent in dyeing synthetic fibers with disperse colors and for fast color salts and bases in Napthol dyeing and printing.

Effective in stripping to prevent redeposition of the color on stripped goods.

N

Neofinish (Ne/.O.Finish)

Non-ionic softener dispersible in hot water, suitable for all textile fibres, both natural and synthetic. Compatible with all types of finishing materials, including resin finishes. No development of color or odor in goods finished with Neofinish, even in storage. No yellowing at time of application.

Neowet (nē/ō . wĕt)

Complex Polyethylene Ether in the form of a pale yellow, slightly viscous liquid.

A non-ionic surface active wetting agent, effective at all temperatures. Completely compatible with enzymatic desizing agents and readily soluble in water. Contains 33 1/3% active ingredients. Widely used in scouring all types of textile fabrics and for general wetting purposes.

Neowet X (nē/ō . wĕt)

Organic Ether Sulphonate in the form of a water white slightly viscous liquid.

An anionic surface active wetting agent, effective at all temperatures. Does not affect enzyme activity in desizing. Compatible with hydrogen peroxide and resin finishes. High detergent value. Contains 20% active ingredients.

Neozymes[®] (nē/ō . zĭms)

Desizing agents made up of amylolytic, proteolytic and fat splitting enzymes available in the form of crystalline powder or liquid concentrate for high or low temperature requirements.

Neozymes quickly remove all trace of starch glue or gelatin sizing without danger of damage to even the most delicate fabrics. For best results, use with NEOWET to speed saturation.

P

Parolite[®] (pār/ō . lĭte)

Zinc sulphoxylate formaldehyde in the form of white crystalline powder. A highly concentrated stripping agent for all forms of wool and modern synthetics.

Completely soluble in water. Leaves stripped goods soft, completely free of zinc dust and in most receptive condition for further processing. Often completely strips goods where other stripping agents fail. Very effective in discharge printing on acetate rayon.

V

Vatrollte[®] (vāt/rō . lĭte)

Concentrated sodium hydrosulphite in the form of white crystalline powder. A powerful reducing agent for vat colors, ideal for dry feeding because of its free flowing, dustless character. Completely soluble in water.

Effective stripping agent for direct, sulphur and vat colors on cellulosic fabrics.

Quickly removes rust stains from cotton goods. May be stored indefinitely.

Available with optical whites and in buffered formulas for high temperature use without excessive alkalinity.

Velvo Softener (vel/vō)

A highly sulphonated tallow in the form of a creamy white paste, easily dispersed in water. Used in general finishing of all types of textile fabrics. Will not "smoke off" or change color in high temperature operations such as calendering or drying. Has no effect on light fastness of colors.

Strategically placed warehouses plus company owned trucks add up to fast dependable delivery, every time.

A closer look at Whitin — No. 10

Always open

At Whitin, the doors are always open for new ideas and to new people. The success of any organization is directly proportional to its willingness to base its growth on the thinking of dynamic, creative, forward-looking people — people with the special knowledge and abilities to translate new ideas into practical plans and programs. Whitin has welcomed many. Each has made significant contributions to the improvement of Whitin products and services.

From this "open door policy" Whitin expects to provide additional benefits for its customers — "extra" values to make their mill operations more profitable.

Whadd'a ya mean this is the end!

Photographer's Page

This Page is dedicated to Ken Daby, the yearbook photographer. It is intended to give him an opportunity to demonstrate his skill in the artistic aspects of photography. For those interested in photography, Ken shot the picture with a Haselblad 500C camera on Kodak Tri-X film at f22, 1/200 second, using available light in his darkroom. (While it was dark, of course.)

Edward J. Coogan, Jr.

The book which you now hold in your hands is the result of hard work, worry, and pride. We have tried to present to you, at this the culmination of the first year of SMTI, a yearbook comparable to that of any other small college.

Many long hours were spent in preparation, many pictures were taken and retaken, and many articles were written and rewritten before this, the final copy, reached your hands.

This could not have been accomplished without the help and cooperation of a hard working staff. I am particularly indebted to:

Al McNally, our advisor, who certainly did more than could be expected of any advisor.

Ted Coogan, Taylor Publishing Company's representative, without whose help a staff as inexperienced as ours could have never survived.

Tim Cole, my assistant, who found time for any assignment no matter what distractions arose.

Ken Daby, our chief photographer, who has demonstrated that he is the "master" of the camera.

Len Babin, who has demonstrated that the pen is mightier than the sword.

Maury Wills and Eddie Mendes, the business managers, whose tedious and almost impossible task it was to raise the funds for this book.

George Costa, whose fingers typed rapidly over many a copy page.

Cathy Rogers and Wilma Pinkney, whose ability with brushes present an artistic satisfaction.

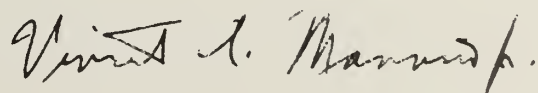

Hilary White, who compiled the index with the help of Peggy Abram.

Bernice Barnaby, who was available for typing whenever I desired.

Marianne McNally, who proof read this book and who rarely saw Al while this book was prepared.

The entire staff for their time, effort, and cooperation.

May you enjoy this book now and during the years to come, realizing that "ALPHA 65" is truly the beginning of SMTI.
